

**Broken Wheel Ranch Improvement & Service District
BWR ISD #1 Well
Notes from Pre-Bid Meeting and Site Visit to Proposed Well Location
March 14, 2022, 1-2pm
Don Wooden Center, Alpine, WY, and Proposed Well Location**

The meeting was run by Kevin Martin and Jason Linford of Sunrise Engineering (which is the firm doing the well project for BWR ISD).

There were two contractors in attendance, representatives of the Wyoming Water Development Office, BWR ISD board members, and the engineers (see attached Attendance Roll for all in attendance).

Kevin introduced everyone and he and Jason covered the following topics:

- An overview of the funding for this project (which includes WWDO grant, SRF loan, USDA grant, and BWR ISD funds).
- A description of the current project – drilling a test well that can become the full well assuming it meets WWDO specifications.
- A description of the bid process and bid opening (to be held on March 28 at this same location at 1pm).

Discussion was then had on the viability of the proposed location and the construction of the well; Ben Jordan was brought into the conversation via phone to answer questions/concerns thereof.

The meeting participants visited the proposed well site to get a better idea of the location of the project and issues that may come into play thereof, after which time we were adjourned.
