

**Broken Wheel Ranch Improvement & Service District**  
**BWR ISD #1 Well**  
**Notes from Bid Opening Meeting**  
**March 28, 2022, 1pm**  
**Don Wooden Center, Alpine, WY**

The board met informally to discuss the bid and the meeting was run by Kevin Martin of Sunrise Engineering (which is the firm doing the well project for BWR ISD).

There was one bid received and one contractor in attendance (Randy Woodward of Jerry Bornhoft Construction, Inc.), as well as Robert Austin (BWR ISD treasurer) and Dorrene BrownButterfield (BWR ISD secretary, via phone).

Kevin explained the purpose and process for the meeting, also explaining that Sunrise Engineering would thoroughly review the bid, share it with those involved with our project at the Wyoming Water Development Office, and prepare a yea or nay recommendation for the Board to consider. He then opened the one received bid and read the summary thereof, after which Dorrene left the meeting and those remaining went over the bid line by line. The meeting was adjourned after that review.
